cinemar

Introducing AudioFetch! Local TV Audio to Apple® and Android® Smartphones.

- Entertain your members by providing real time audio from TVs or any audio source.
- Available in 4 channel systems that can be easily expanded up to 16+ channels.
- Users download the AudioFetch App at iTunes® or Google Play® stores to enjoy the audio.
- Phone audio and TV visual sync together. Guaranteed lowest audio latency.
- Easy to Install – Light-weight, low profile box can be rack mounted or located near TVs.
- Compatible with most existing WiFi networks.
- Plug-n-Play installation with no knobs or other settings to configure.
- Accepts an industry-best 3 audio input types (analog, optical or digital coax).
